

Video of the day

Refer to the note below if the video of the day does not get updated.

Important note : if you can not see the video of the day or the one from yesterday

- Mouse over the Divx player, right-click
- Go to Preference and select the " download to cache" tab. Disable the "download to cache" button.

Note that the video of the day is usually available starting at 10.30pm of the same day.
